DEPARTMENT DASHBOARDS

- Five Departments Added

TRANSPARENCY

- **NEW:** Export Chart as Image
- **NEW:** Historical Benchmarking

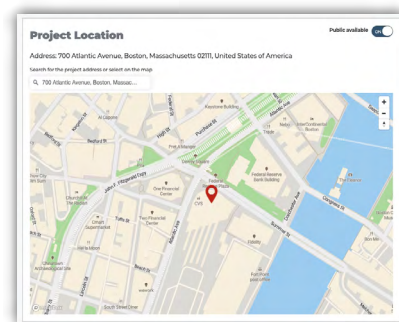

ADMIN

- **NEW:** Copy Projects, Charts and Benchmarking Reports

PROJECTS

NEW: Project Location

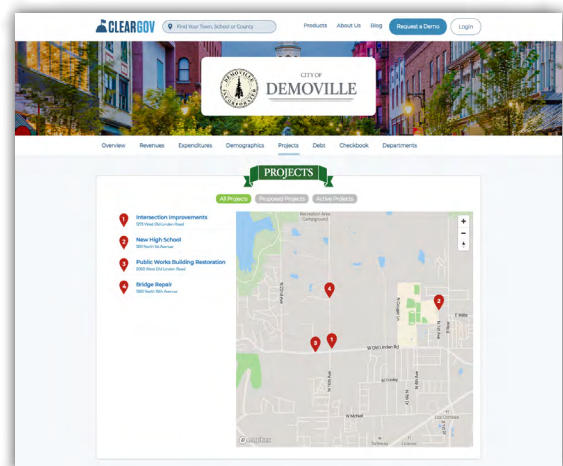

Project creators can now add the address of a project to the 'Project Details' page and it will display the project's location on a map.

Landing Page Redesign

The 'Projects' landing page has been redesigned to incorporate a project map. Projects will now appear in a list on the left side of the page and each project's location will be pinned on a map.

- Viewers can adjust their display to see proposed projects, active projects or all projects (which include archived projects). 'All Projects' will be selected by default.

CUSTOM PANELS

NEW: Add Attachments

Enhance any custom panel within your Transparency profile or Department Dashboard by adding PDFs, Word documents, Excel spreadsheets and more.

NEW: Image-based Templates

New templates have been added to the panel options that enable you to upload an image (instead of a chart) to your custom panel.

- When adding a panel to your Transparency profile or Department Dashboard users will be able to choose a panel template that has a placeholder for an image instead of a chart.

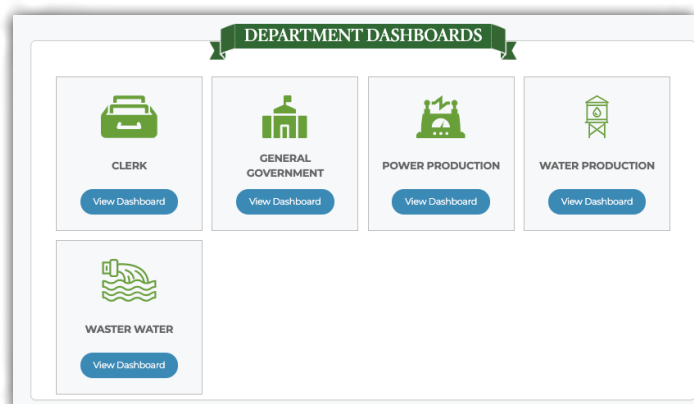

DEPARTMENT DASHBOARDS

Five Departments Added

Five new departments have been added to the list of departments available for Department Dashboards.

- Clerk, General Government, Power Production, Water Production, Waste Water

TRANSPARENCY

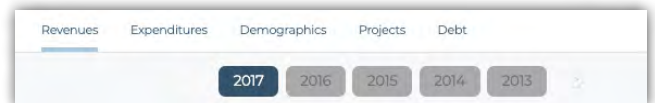

NEW: Export Chart as Image

Viewers now have the ability to export a chart as an image.

- Charts that have this functionality available have a magnifying glass icon in the top right of the panel. Clicking on the icon will enlarge the chart and a new button will appear that allows you to download the chart as a PNG.

NEW: Historical Benchmarking

Historical year buttons have been added to the benchmarking analysis pages within a Transparency profile to give viewers the ability to see the analysis for prior years.

ADMIN

NEW: Copy Projects, Charts and Benchmarking Reports

Admins can now copy projects, charts and benchmarking reports to save them time when creating new items.
